

## WAYS TO PRAY:

~ Pray for us as this has been the biggest transition of our lives. It has been hard in some aspects as we learn to adapt out here and we do get homesick from time to time. What has kept us going is your prayers so please continue to pray for us! We can't do any of this in and of ourselves, only through the power of God. Pray we will equip ourselves with the armor of God!

~ Pray for a pastor for our village church here. There is a pastor that might be coming to take over the church here. David has preached some, but is not able to fully take over the church/pastoral duties due to our primary roles here on the mission base as pilot/mechanic.

~ Pray for us during the first few weeks of August as we plan to meet with immigration about our Honduran residency and proceed with Nicholas' dual citizenship and U.S. passport.

## Being the Hands and Feet of Jesus

During the week of June 5th-12th, we enjoyed the company of the Medico medical team from the United States. There were several doctors, nurses, dentists, and pharmacists on this team who came to minister in the hospital. David and Wes had the opportunity to drive the MAG Kia truck to different villages to transport patients here for the brigade. What a privilege it was to finally have a truck out here. We praise the Lord for providing this truck for Rus Rus. David helped translate to Spanish in the hospital and helped with transportation.

We were able to offer a work day at the end of June for the Nicaragua refugees that are currently living in our village. They worked very hard and in return we were able to give them rice and beans. We are trying to continue to teach the people responsibility as we minister to them. Another ministry is simply just walking through the village a few times a week and speaking to the people. We have an avocado tree in our yard that a missionary planted many years ago. We had over 300 avocados that came from this tree so we decided to pass them out to the village. It was a great way to minister to the people and share a little bit. Everyone was so excited to have avocado, as this is a special treat for them considering they usually only eat rice and beans.

# MORAS IN MINISTRY

## Transitions

We wanted to send an update on how things are going here in Honduras. We officially moved into our side of the duplex at the end of May. We aren't completely finished with everything, but have made excellent progress thanks to the construction team and Hannah's parents.

Hannah started a Ladies' Bible study two weeks ago. The ladies had a desire to study women of the Bible so we have started with the book of Esther. The women are hungry for the Word of God. David is hoping to start a Bible study very soon for the men on "Inductive Bible Study- How to Study the Bible." David continues to preach from time to time in the local church here. We enjoy worshipping with the believers each week.

David is working hard to get checked out on the different grass air strips out here. Please keep them in your prayers as Wes flies with David in the airplane. David also gets lots of experience with maintenance and not just on the airplane! When something breaks or leaks out here, he is the mechanic or plumber! David is also learning how to maintain and work on other things here on the mission base such as maintaining the generator, water pump/tower, airplane, tractor, and truck. Wes has been so helpful in teaching David how to maintain these things here on the mission base. These are things we take for granted in the states.

## SUMMER UPDATE 2016

## Nicholas is 3 months old!

Nicholas was 3 months old on July 5th and is growing so fast. He weighs 14.6 pounds and is 25 inches long. He loves to lay/sleep on his belly, has started sucking his thumb, and loves laying on your shoulder. He is such a cuddle bug! He coos and smiles frequently. He can also roll over, although we have yet to see it. He does this at night while he is sleeping. We

hope to witness him rolling over soon. He is also sleeping through the night (8-9 hours at a time) most nights. We are so in love with our little boy and thank God daily for Him. He brings so much joy into our lives.

Chester continues to grow. He is an excellent guard dog for our house and the mission base.

Ladies' Bible Study Group

We had the opportunity to hand out avocados to the village from our avocado tree!
